

Department of Defense

207.170-2

(ii) Increased emphasis in source selection on the efficiency of production.

(6) Expanded use of commercial manufacturing processes rather than processes specified by DoD.

(7) Elimination of barriers to, and facilitation of, the integrated manufacture of commercial items and items being produced under DoD contracts.

(8) Expanded use of commercial items, commercial items with modifications, or to the extent commercial items are not available, nondevelopmental items (see FAR part 10).

(B) *Industrial preparedness (IP).*

(1) Provide the program's IP strategy that assesses the capability of the U.S. industrial base to achieve identified surge and mobilization goals. If no IP strategy has been developed, provide supporting rationale for this position.

(2) If in the IP strategy, the development of a detailed IP plan was determined to be applicable, include the plan by text or by reference. If the development of the IP plan was determined not to be applicable, summarize the details of the analysis forming the basis of this decision.

(3) If the program involves peacetime and wartime hardware configurations which are supported by logistics support plans, identify their impact on the IP plan.

(C) Ensure compliance with DoD Instruction 4715.4, Pollution Prevention.

(D) *Contract administration.* Discuss the level of Government administration anticipated or currently performed and any change proposed by the contract administration office.

(E) *Special considerations for acquisition planning for crisis situations outside the United States.* Ensure that the requirements of DoD Instruction 3020.37, Continuation of Essential DoD Contractor Services During Crises, are addressed. Also see the guidance at PGI 207.105(b)(19)(E).

207.106 Additional requirements for major systems.

(b)(1)(A) The contracting officer is prohibited by 10 U.S.C. 2305(d)(4)(A) from requiring offers for development or production of major systems that would enable the Government to use technical data to competitively repro-cure identical items or components of the system if the item or component were developed exclusively at private expense, unless the contracting officer determines that—

(1) The original supplier of the item or component will be unable to satisfy program schedule or delivery requirements;

(2) Proposals by the original supplier of the item or component to meet mobilization requirements are insufficient to meet the agency's mobilization needs; or

(3) The Government is otherwise entitled to unlimited rights in technical data.

(B) If the contracting officer makes a determination, under paragraphs (b)(1)(A) (1) and (2) of this section, for a competitive solicitation, 10 U.S.C. 2305(d)(4)(B) requires that the evaluation of items developed at private expense be based on an analysis of the total value, in terms of innovative design, life-cycle costs, and other pertinent factors, of incorporating such items in the system.

207.170 Consolidation of contract requirements.

207.170-1 Scope.

This section implements 10 U.S.C. 2382.

[69 FR 55987, Sept. 17, 2004]

207.170-2 Definitions.

As used in this section—

Consolidation of contract requirements means the use of a solicitation to obtain offers for a single contract or a multiple award contract to satisfy two or more requirements of a department, agency, or activity for supplies or services that previously have been provided to, or performed for, that department, agency, or activity under two or more separate contracts lower in cost than the total cost of the contract for which the offers are solicited.

207.170-3

Multiple award contract means—

(1) A multiple award schedule issued by the General Services Administration as described in FAR Subpart 8.4;

(2) A multiple award task order or delivery order contract issued in accordance with FAR Subpart 16.5; or

(3) Any other indefinite-delivery, indefinite-quantity contract that an agency enters into with two or more sources for the same line item under the same solicitation.

[69 FR 55987, Sept. 17, 2004]

207.170-3 Policy and procedures.

(a) Agencies shall not consolidate contract requirements with a total value exceeding \$5,000,000 unless the acquisition strategy includes—

(1) The results of market research;

(2) Identification of any alternative contracting approaches that would involve a lesser degree of consolidation; and

(3) A determination by the senior procurement executive that the consolidation is necessary and justified.

(i) Market research may indicate that consolidation of contract requirements is necessary and justified if the benefits of the acquisition strategy substantially exceed the benefits of each of the possible alternative contracting approaches. Benefits include costs and, regardless of whether quantifiable in dollar amounts—

(A) Quality;

(B) Acquisition cycle;

(C) Terms and conditions; and

(D) Any other benefit.

(ii) Savings in administrative or personnel costs alone do not constitute a sufficient justification for a consolidation of contract requirements unless the total amount of the cost savings is expected to be substantial in relation to the total cost of the procurement.

(b) Include the determination made in accordance with paragraph (a)(3) of this section in the contract file.

[69 FR 55987, Sept. 17, 2004]

Subpart 207.4—Equipment Lease or Purchase

207.401 Acquisition considerations.

If the equipment will be leased for more than 60 days, the requiring activ-

48 CFR Ch. 2 (10-1-05 Edition)

ity must prepare and provide the contracting officer with the justification supporting the decision to lease or purchase.

207.470 Statutory requirements.

(a) *Limitation on contracts with terms of 18 months or more.* As required by 10 U.S.C. 2401a, the contracting officer shall not enter into any contract for any vessel, aircraft, or vehicle, through a lease, charter, or similar agreement with a term of 18 months or more, or extend or renew any such contract for a term of 18 months or more, unless the head of the contracting activity has—

(1) Considered all costs of such a contract (including estimated termination liability); and

(2) Determined in writing that the contract is in the best interest of the Government.

(b) *Leasing of commercial vehicles and associated equipment.* Except as provided in paragraph (a) of this section, the contracting officer may use leasing in the acquisition of commercial vehicles and associated equipment whenever the contracting officer determines that leasing of such vehicles is practicable and efficient (10 U.S.C. 2401a).

[61 FR 16879, Apr. 18, 1996, as amended at 61 FR 50451, Sept. 26, 1996]

207.471 Funding requirements.

(a) Fund leases in accordance with DoD Financial Management Regulation (FMR) 7000.14-R, Volume 2A, Chapter 1.

(b) DoD leases are either capital leases or operating leases. The difference between the two types of leases is described in FMR 7000.14-R, Volume 4, Chapter 7, Section 070207.

(c) Capital leases are essentially installment purchases of property. Use procurement funds for capital leases.
